

CERTIFICATE

Mr Kay Kelterer

attended the

1st Forum on Halogenated Pollutants

04. - 05. April 2019 / Burghausen, Germany

The forum provided a comprehensive outlook of the already implemented and expected changes in the European Regulations of the analysis of persistent organic pollutants (POPs).
Leading international scientists from research laboratories and supervisory authorities shared their experience in PFAS, PCB and dioxin analysis and thus gave the base for exciting discussions.

Besides, there was time for an open knowledge exchange amongst the participants of the forum.
